

ADMISSION

Entry into the secondary school is through a competitive form of entrance examination and a subsequent interview. The dates for the entrance examinations are published in widely circulated national newspapers. Successful candidates are then informed in writing about what other requirements are expected to bring to school.

THE ADMISSION PROCESS INCLUDES THE FOLLOWING STAGES:

APTITUDE TESTS: Tests of quantitative and qualitative skills.

ORAL INTERVIEW: The prospective student dialogues in two separate stages with a staff member and with the school's CEO.

REVIEW AND APPRAISAL: The school reviews and appraises the child's performance with the parents or guardians.

OFFER OF ADMISSION: The CEO offers admission to a successful candidate.

This process is not designed to make admission difficult but to ensure that you, your child and the school have similar goals. Each section of the process is conducted by a friendly staff member who is well-trained to bring out the best in your child.

You will please contact the school for the next date of the admission process. Please ensure you and your child arrives at 9.00 am. Lunch will be provided for your child. The exercise may last for about four hours.
